## What are the risks of investing?<sup>1</sup>

Risk indicator for the SBS Wealth Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-profiler](http://www.sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## Notes

- <sup>1</sup> As this Fund started on 28 April 2025, five-year actual returns for the Fund are not available. To calculate the risk indicator for the five-year period ending 31 March 2026, market index returns have been used up to 30 April 2025 with actual Fund returns used for the balance of the period. As a result of those market returns, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund.
- <sup>2</sup> As this Fund started on 28 April 2025, annual fund charges of the investment option for the year to 31 March 2025 are not available. The charges reflect the fees disclosed in the PDS dated 27 November 2025 instead.
- <sup>3</sup> This covers expenses incurred in running the Fund (e.g. accounting, audit, and regulatory compliance costs). This also covers the Supervisor's annual fee (for the services it provides) and an estimate of fees and expenses incurred by the underlying funds. Our estimates are made on the basis of reasonable assumptions about the ongoing level of fees and costs expected to be charged (taking into account the actual fees and costs as a percentage of average net asset value that were charged for the most recent scheme year). These fees are deducted from, and reflected in the unit price of the fund.
- <sup>4</sup> As the Fund started on 28 April 2025, an annual return for the Fund for the year ended 31 March 2025 is not available. For the purposes of the investor example, the return is the actual return of the market index for the period 1 April 2025 to 31 March 2026 with no deductions for charges and tax.
